Melamine

Maintenance & Cleaning

Melamine is low maintenance and easy to clean. Simply wipe down with a clean, damp cloth. With stubborn grease and grime, use vinegar diluted with water or Selleys Sugar Soap.

Important: Always wipe with a damp cloth, then a dry cloth after cleaning to remove moisture. Never use abrasive cleaners or cleaning tools on Melamine such as; Jiff, Vim, Brasso, steel wool or abrasive sponges. We also recommend caution in using bleach and alcohol based cleaners.

Environmental

As a caring, corporate citizen, we support the responsible stewardship of the earth, its inhabitants and its resources.

Our worksurfaces are designed and made to last, and in their manufacture, use and disposal, embody the environmental principles of Reduce, Reuse & Recycle.

Please contact our sales team for custom manufacturing options.
